

Answers to the questionnaire

This questionnaire was made by the Comenius-group and answered by the pupils of the secondary school in Merijärvi.

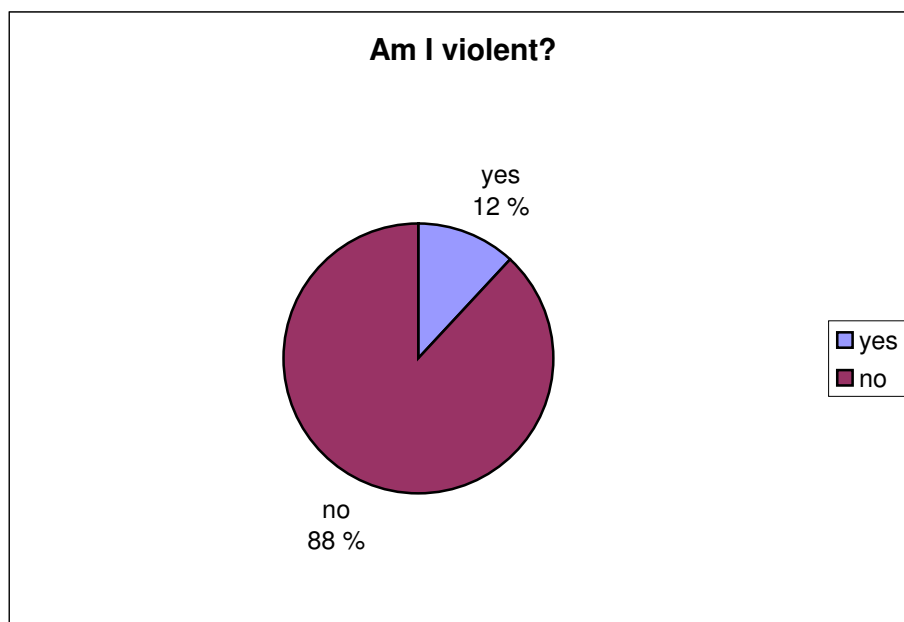

Youth group

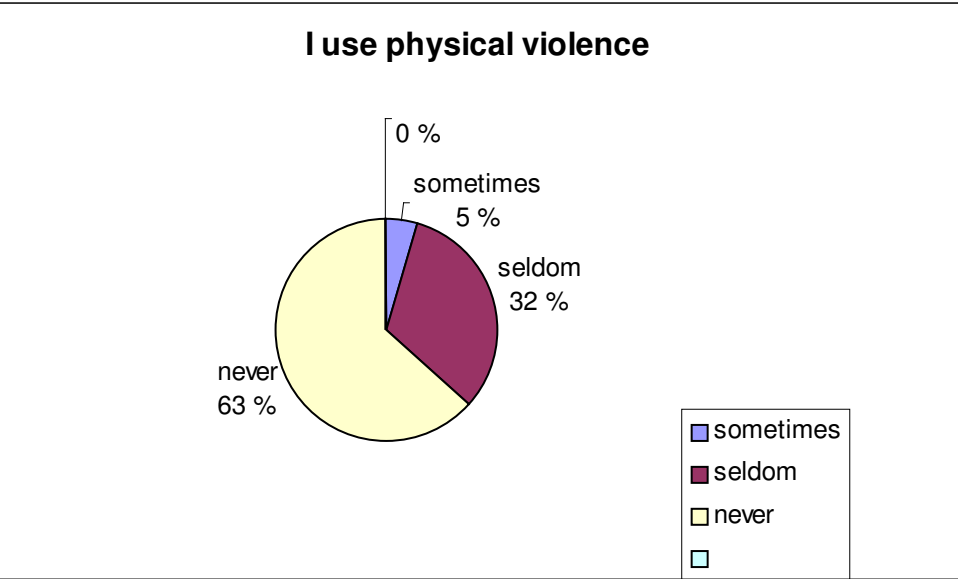

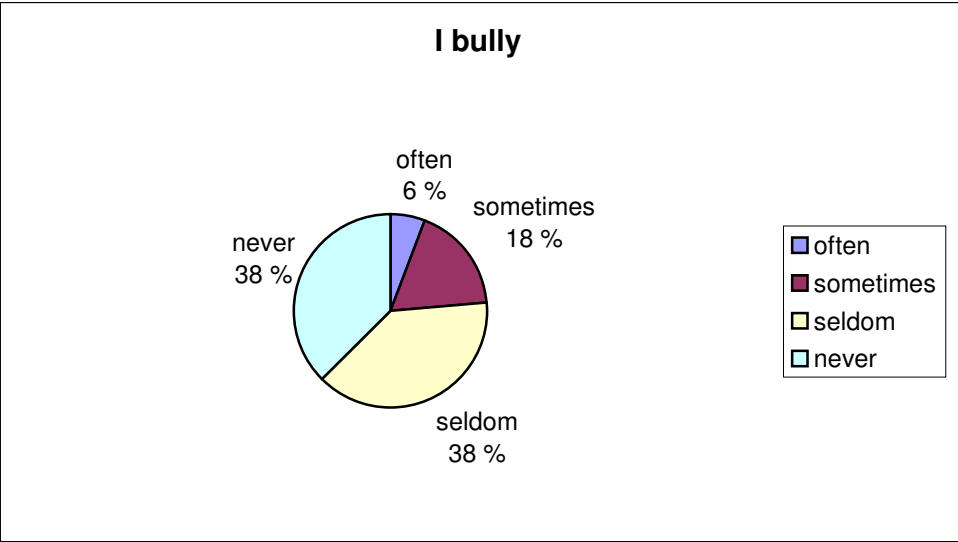

Youth groups are sporting young people, young parishioners, ordinary young people and youth clubbers in Merijärvi.

Violence

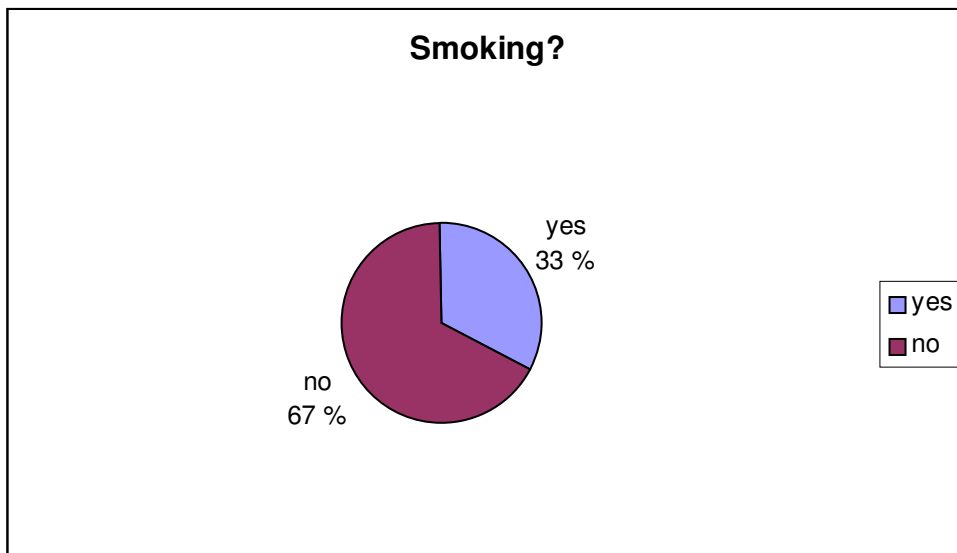

In Merijärvi there is more mental violence than physical. Mental violence includes such things as moching and chitchat. Mild physical violence includes such things as hitting, clawing and pinching. Hard physical violence includes such things as kicking and hacking. Most of the students in our school have met either physical or mental violence.

Smoking

Smoking age limit is 18 in Finland. We have 17 smokers in our school. Half of smokers smoke every day and half of them smoke only on weekends. They get cigarettes from friends and acquaintances. Most of them smoke because they have an addiction and it gives a good feeling.

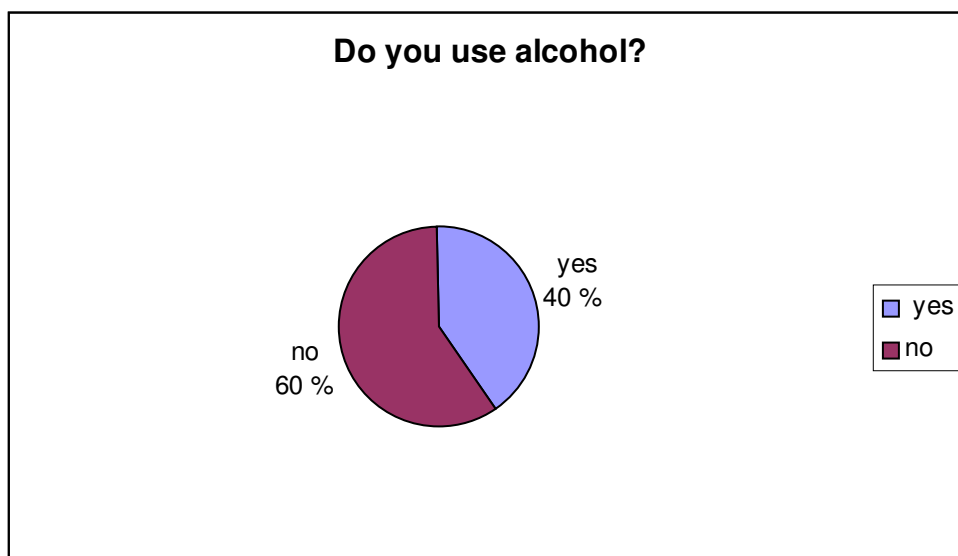

Alcohol

You can't use or buy alcohol in Finland if you are under 18 years old. The inquiry revealed that many students use alcohol. One of them once a week, five of them once a month and five of them once in a half year. Rest of the students use alcohol not so often.

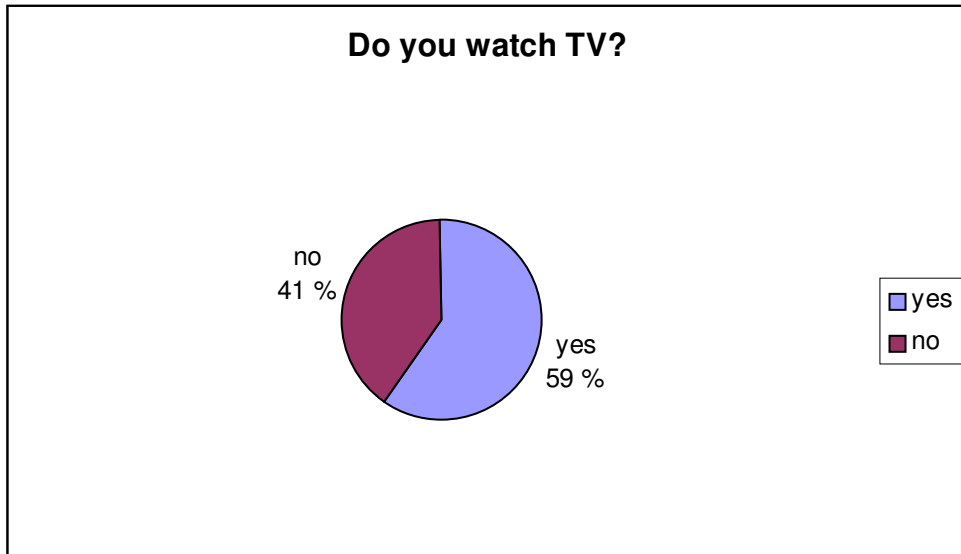

The next question was: "Where do you get alcohol?" One student answered buying from a store, two students answered from parents and 16 students answered from friends. Rest students answered somewhere else.

3rd question was: "Why do you use alcohol?" Three answered because my friends use too, seven answered because it's good and eight answered because of the good.

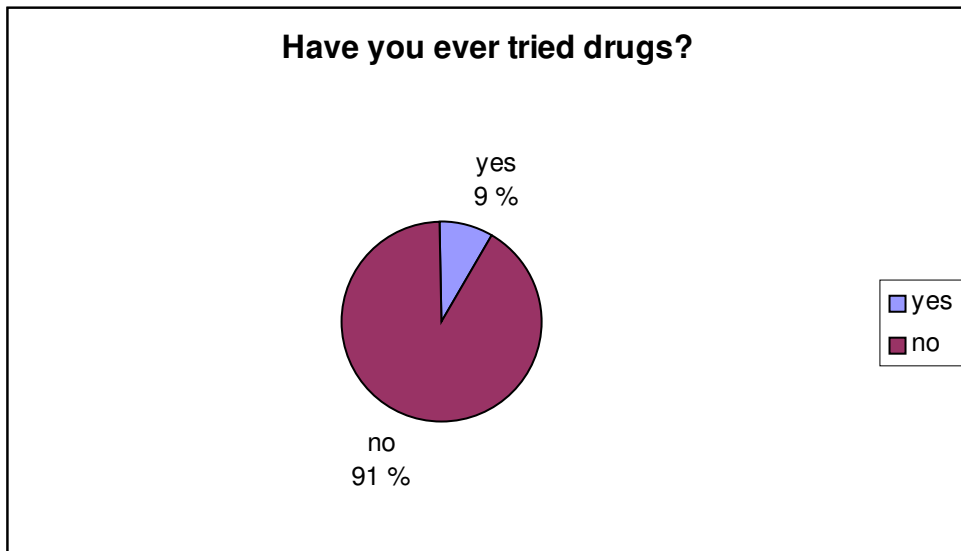

Watching TV

Many students in Merijärvi don't watch TV, because of religious beliefs.

Drugs

Not many students have tried drugs in Merijärvi.

Using of the computer

Some students say they use computer too much. Most students say that they use computer just enough. Some students spend more than five hours a day. Most students use computer from one to two hours. Computer is used for playing games, surfing on the net, many use facebook, watch videos and listen to music.
